PROFILE

Self-driven MERN Stack Developer with a strong foundation in full-stack web development, specializing in building responsive websites, REST APIs, and scalable dashboards. Experienced in delivering real-world projects using modern technologies like React, Node.js, MongoDB, and Express.js.

💻 TECHNICAL SKILLS

- Frontend: HTML5, CSS3, JavaScript (ES6+), React.js, Bootstrap, Tailwind
- Backend: Node.js, Express.js, RESTful APIs
- Database: MongoDB, Mongoose
- Tools: Git, GitHub, Postman, IntelliJ IDEA, VS Code
- Others: SEO Optimization, JWT Auth, Chart.js, PHP & MySQL (Basic)

🚀 PROJECT HIGHLIGHTS

◆ **E-Commerce Platform (MERN Stack)**

- User & Vendor modules, product filters, cart, order system, secure login
- Admin dashboard with product CRUD operations

◆ **CMS Web Application**

- Built with React, Express, MongoDB
- Role-based dashboard with live content editing and SEO-ready structure

◆ **Royal Enfield Bike Store**

- Bike listing with order form and custom UI components

◆ **Library Management System**

- User/Librarian dashboard, book borrow/return with fine system

◆ **Real Estate Listing Site**

- Add/search/filter properties, full responsive design

◆ ****Restaurant Recommender App****

- Used Express.js & MongoDB for rating-based suggestions

◆ ****Rock Paper Scissors Game****

- Enhanced UI with icons, sound effects, and bug fixes

◆ ****Banking Console App (Java)****

- Deposit, withdrawal, interest calc, mini statement feature

🎓 EDUCATION

Bachelor of Technology (B.Tech) – Computer Science, 2023

Currently Pursuing Master of Computer Applications (MCA)

🔧 INTERNSHIP

****Alphawizz Technologies (45 Days)****

Frontend – HTML, CSS, Bootstrap | Backend – PHP | DB – MySQL
